INTERAVIA

Review of World Aviation

INDEX TO VOLUME XIII - 1958

No. 1 Space Weapons and NATO
Wingless Aircraft

No. 2 Sweden's Air Power
Strengthening the Western Alliance
Britain's "V"Bombers

No. 3 European Air Transport
Automation

No. 4 Has the West Chosen the Right Weapons ?

No. 5 Navigation and Communications in the Jet Age
Atlas ICBM - Super Tiger Fighter

GENERAL SUBJECTS

No. 6 A Quarter Century of Aviation - Jubilee Issue

No. 7 Army Aviation
STOL/VTOL Aircraft
Lockheed "JetStar"

No. 8 Air Transportation - U.S.A.
Mobility for Missile Strategy
The Polaris Weapon System

No. 9 Preview of Farnborough 1958
The Bomarc Weapon System

No. 10 IATA in New Delhi
Traffic Control Problems
Air Transport in Three Continents
Review of Farnborough 1958

No. 11 Tactical Missiles
Convair 880/600 Jetliner

No. 12 The Moon Flight
Aircraft Engines 1958

INDEX BY SUBJECTS :

The first number after each title refers to the issue, the second number to the page

International Organizations

The ICAO Air Navigation Conference : 3/190
The FAI's 51st General Conference : 6/591

I.A.T.A.

Life Begins at Forty — Sir W. P. Hildred : 10/1019
From Unmanned ... to Manned Aircraft : 10/1019
India: Air Transport, One of 360 Million Problems: 10/1020
India : Air Battles between Gods, Heroes and Demons : 10/1023
Flexibility in IATA — J. W. S. Brancker : 10/1024
Revolution or Evolution ? IATA Preparation for the Jet Age — S. Krzyczkowski : 10/1025
International Airline Taxes and Charges — H. J. Gorecki : 10/1031
Pillars of World Air Transport : 10/1032
Four Resolutions in Search of a Sponsor : 10/1038
IATA's 14th Annual General Meeting in New Delhi : 12/1294

Political

End or New Beginning for NATO ? : 1/31
Does NATO Need Re-Thinking ? : 1/35
McElroy Renders his Account : 2/106
Missilitis is Catching : 2/115
Neutrality Demands Sacrifices : 2/116
After the Paris Conference : 2/126
Situation Report from Bonn : 3/246 ; 12/1315
Has the West Chosen the Right Weapons ? : 4/303
World War Impossible, Local Conflicts Probable — P. M. Gallois : 4/305
Armageddon or Fontenoy ? — L. M. Chassin : 4/314
Stuart Tipton Reports to the Senate : 5/382
British Aviation Prospects — D. H. Wood : 5/455
The Farnborough Air Arsenal — P. M. Gallois : 9/915
Back to the Conventional — P. M. Gallois : 11/1160

Air Transportation

Italian Air Transport Under a New Flag : 1/62
European Transport Problems : 3/207
Can all those Seats be Filled ? : 3/208
Aircraft for Tomorrow's Airline Fleets : 3/212
American Airlines' Automatic Reservations System : 3/234
France's Airlines Conquer the Sahara : 4/334
New Lufthansa — the First Three Years — G. Höltje : 6/578
Canadian Hospitality (TCA) : 7/719
Airlines Face New Apprenticeship : 8/787
The United States Airlines' Challenge — S. G. Tipton : 8/788
The Civil Aeronautics Administration — J. T. Pyle : 8/790
The Civil Aeronautics Board — J. Durfee : 8/791
The Great Adventure : 8/792
PAA is Ready to Go — A. P. Adams : 8/795
As the Independents See It — G. Patterson : 8/797
The U.S. Federal Aviation Agency : 10/1001
Pillars of World Air Transport : 10/1032
The Flying Conquistadors — L. C. Boussard : 10/1043
Aeroflot ... at Home and Abroad : 10/1048
Canada : Bush Flying Complements International Operations — H. M. Willmot : 10/1059
Must Sell ... 2,000 Piston-Engine Aircraft : 11/1141
Grouping of Interests in European Air Transport : 11/1193
Two *Interavia* Passengers in the 707 — D. H. Wood and G. Février : 12/1297

Service Aviation

Light Strike Fighters for the Defence of Europe — P. M. Gallois : 1/38
The Four Manufacturers' Views — G. Gabrielli — H. Ziegler — M. Dassault — G. Héreil : 1/42
The Future of the Swedish Air Force — S. E. Alm : 2/117
The Manned Bomber gets a New Lease of Life — P. M. Gallois : 2/131
The V-Force — D. H. Wood : 2/139
The Effects of Nuclear Explosions : 4/309
The Soviet Union's New Tactical Bombers and Fighters : 4/318
NATO's Lightweight Strike Aircraft — J. J. Driscoll : 4/323
New Weapons — New Tactics : 7/687
What Kind of Aviation does the Army Need ? — L. M. Chassin : 7/687
Global Mobility for Missile Strategy : 8/812
New U.S. Navy Aircraft Projects : 8/816
A Longer Reach for SAC : 8/840

Aircraft

Commercial Aircraft :

Tupolev Tu-114 Rossiya : 1/61
The Fairey Rotodyne : 6/571
The United States Arsenal of VTOL and STOL Aircraft : 7/692
European Vertical and Short Take-Off Aircraft : 7/698
Lockheed 329 JetStar : 7/711
The Westland Westminster : 9/925
Convair 880/600 : 11/1195

Military Aircraft :

The Saab-35A Draken : 2/120
New Supersonic Trainer for the USAF (Northrop T-38) : 2/143
The Fouga Magister at the Ecole de l'Air — Col. Dorance : 2/144
Saunders-Roe SR. 177 : 2/145
Design Principles of the Draken Supersonic Fighter — E. Bratt : 3/239
A Weapon System in Practice — Lockheed F-104 : 4/326
One Hundred Miles up at Mach 7 — North American X-15 : 4/328
The Grumman F11F-1F Super Tiger : 5/439
Building the First Space Aircraft (X-15) : 6/592
The United States Arsenal of VTOL and STOL Aircraft : 7/692
European Vertical and Short Take-Off Aircraft : 7/698
Lockheed 329 JetStar : 7/711
North American A3J Vigilante : 7/739
The Northrop N-156F : 8/800
The Republic F-105 Weapons System : 8/817
The HA. 200-R1 Saeta Jet Trainer : 8/836
The Versatile Gnat : 9/918
The Hawker Hunter and the Ground Attack Role — A. W. Bedford : 9/923
The Westland Westminster : 9/925

Guided Missiles, Rocketry and Astronautics

The Soviet Union's Rockets and Tanks : 1/45
Rockets, Missiles and Space Vehicles : 2/150 ; 3/243 ; 4/343 ; 5/442 ; 6/594 ; 7/740 ; 8/818 ; 12/1293
The Pentagon's New Missile and Space Projects : 3/256
The Atlas Story : 5/431
Space and Missile Projects either Side of the Atlantic : 6/620
Contraves-Oerlikon Anti-Aircraft and Anti-Tank Systems : 7/700
The Birth of a Missile System — the Polaris : 8/807
Boeing Bomarc : 9/926
Space Flight Becomes a Reality : The 9th IAF Congress : 10/1096
An Interim Account of Tactical Missiles : 11/1159
United States Army Tactical Surface-to-Surface Weapons — P. W. Powers : 11/1162
The Operational Qualities of Tactical Air-to-Surface Missiles : 11/1168
Fighter Defence Systems — J. A. Airey : 11/1170
American Air-to-Air Missile Development : 11/1172
Winged Tank-Busters : 11/1173
U.S. Army Tactical Surface-to-Air Weapons — P. W. Powers : 11/1183
Bloodhound — D. Rowley : 11/1185
Solid-Propellant Rockets and Space Flight — K. R. Stehling : 11/1205
Pioneer Illustrated : 12/1260

Powerplants and Fuels

The Bristol Orpheus and the NATO Programme — B. S. Massey : 1/41
The General Electric T58 Gas Turbine : 1/75
A Combination Powerplant for High-Performance Aircraft — J. Dupin : 4/349
The Ramjet Engine — R. R. Jamison : 9/955
The 1958 Engine Picture : 12/1265
Development of the CJ-805-21 Turbofan Engine — A. P. Fioretti : 12/1266
The Development of the Avon RA. 29 Engine for Civil Jet Transport — E. Eltis : 12/1269

Pratt & Whitney Engines for the Airlines and the Military Services : 12/1273
Lycoming's Half Century — R. W. Stock : 12/1274
Survey of the World's Aircraft Engines : 12/1279
SNECMA's Supersonic Turbojet : 12/1291
Tests of a Direct Cycle Nuclear Turbojet System — D. R. Shoults : 12/1316

Telecommunications and Electronics

Telecommunications and Electronics : 1/73 ; 2/160 ; 4/348 ; 5/458 ; 6/618 ; 7/746 ; 8/833 ; 9/942 ; 11/1186 ; 12/1300
Antennas for the High-Speed Douglas DC-8 : 5/403
Air Navigation for the Jet Age : 10/1050
Telecommunications and Electronics at Farnborough : 10/1090

Airborne and Ground Equipment

Modern Uses of Parachutes — L. H. Ford : 2/146
Elephants Land as Gently as Cats : 2/148
The Safeland Arrester Net : 2/159
Automatic Air Traffic Control — the SATCO System : 3/230
A Fully Automatic Landing System : 3/234
Man Under Pressure — Th. Turner : 3/254
Accurate Navigation, Strict Traffic Control : 5/399
Navigator's Aids in the Boeing 707 — E. N. Sidor : 5/400
Polar Navigation — P. Comet : 5/404
A Short Guide to Radio Navigation and Air Traffic Control : 5/411 ; 6/607
Recent Bendix Communications and Navigation Equipment : 5/419
The Decca Integrated Airborne Navigation System : 5/421
A High Frequency Automatic Position Finding System for the North Atlantic — M. Settelen : 5/422
Flight Control Systems by Collins and Lear : 5/424
Dead Reckoning Made Easy : 5/425
New Semi-Automatic Air Traffic Control System : 5/426
Progress in Radar Engineering : 7/742
Three-Dimensional Radar for Air Traffic Control — V. A. Altovsky : 7/744
Recent Products of the Equipment Industry : 5/457; 9/969
Pressing Problems in Air Traffic Control and Navigation — K. E. Karwath : 10/1061
The Effect of Jet Aircraft on Air Traffic Control — R. Aucouturier : 10/1064
A Meteorological Plan for Improved Flight Safety — F. W. Reichelderfer : 10/1079
Air Traffic Control and Autonavigators — H. Giesecke : 11/1208
A Ground-Based Take-off Monitor System — J. S. Lukesh : 12/1301
One Radar or Two for Surveillance Work ? — J. K. Todd : 12/1302

Ground Organization

Jet Age International Airport : 1/64
Frankfurt's " Rhein-Main " Airport : 3/218
The Air Navigation Angle in Europe — L. C. Boussard : 3/220
Emergency Power Supply for Air Traffic Control : 3/258
New York International Airport Moves ... to Europe : 5/434
Nice-Côte d'Azur Airport : 9/970

Research and Technical

The Aerodyne Concept — A. M. Lippisch : 1/51
Interavia Interview with Hall L. Hibbard : 1/56
VTOL Flight Test and Development — C. E. Myers : 1/57
VTO or STOL ? — D. H. Wood : 1/60
Mid-Air Collisions — S. J. Gerathewohl : 8/823
An Assessment of the Jet Flap — J. H. Stevens : 9/958

Industry

A Firm Basis for Sweden's Air Power — B. R. Noton : 2/121
The DC-8 in Production : 3/222
The Boeing Jet Transport Spares Provisioning Program — W. E. Parsons : 3/232
U. S. Aviation Industry Stock Prices : 4/286
Aviation in the Low Countries — E. Baur : 4/344
Geneva — European Headquarters of the American Aircraft Industry : 6/555
The Aircraft Industry in East Germany — R. Stainer : 7/720
The British Aircraft Industry : From the Inside Looking Out — D. H. Wood : 9/903
The British Aircraft Industry : From the Outside Looking In — E. Baur : 9/905

Automation

What is Automation ? : 3/227
Rationalization — L. Brandt : 3/229
Automatic Air Traffic Control — the SATCO System : 3/230
Numerical Control and Automation — M. C. Copold : 4/331
Digital Computers in the Aircraft Industry — H. M. Ross : 4/332
Rationalization and Automation in the Production of Communications Equipment — W. Koch : 5/436
Electronic Data Processing at Swissair : 6/617

Biographical and Historical

A Personal Message to Our Readers : 6/523
1933-1958 — *Interavia* Celebrates its 25th Birthday : 6/524
Assessment for the Future — Sir W. P. Hildred : 6/527
Competition and Cooperation : 6/528
From Douhet to the Deterrent Concept — L. M. Chassin : 6/534
Air Power in Theory and Practice : 6/535
Science as Basis of Aviation — Prof. J. Ackeret : 6/542
The Ups and Downs of the Aircraft Industry : 6/543
Monoplanes, Biplanes or Triplanes : 6/562
Early Navigation Aids — W. von Gronau : 6/575
Spotlighting the World's Oldest Air Route : 6/577
Fifty Years Agusta : 6/615
150 Years D. Napier & Son : 7/738
Charles E. Thomas — New TWA President : 8/777
Death of Dr. Edward P. Warner : 8/777
The Vickers Viscount's Tenth Birthday : 8/837
Lycoming's Half Century — R. W. Stock : 12/1274

Exhibitions and Congresses

The Cinderella of the Brussels Fair : 7/716
International Radio-Navigation Congress in Berlin : 7/722
The NATO Flying Meeting at Liège : 8/799
Message to *Interavia* — Aubrey Jones : 9/903
The Royal Netherlands Air Force's 45th Birthday : 9/939
Farnborough 1958 : 10/1082
Space Flight Becomes a Reality : The 9th IAF Congress : 10/1096

Miscellaneous

The Air Hostess Told Us : 4/330
Editors on Thin Ice : 6/560
Interavia Essay Competition : 6/495 ; 7/669
A Pictorial Tribute (*Interavia*'s Jubilee) : 7/736
How to be an Air Traveller : 8/798
Progress in Pictures : 9/940 ; 11/1190 ; 12/1298
The Flying Conquistadors — L. C. Boussard : 10/1043
Learn to Walk before you Fly : 10/1081
Man's Expanding Dominion : 12/1259

Index of Tables

Aircraft for Tomorrow's Airline Fleets : 3/214-217
U.S. Aviation Industry Stock Prices : 4/286
Pillars of World Air Transport : 10/1032
United States Army Tactical Surface-to-Surface Weapons : 11/1165
The West's Air-to-Air Missiles : 11/1171
Surface-to-Air Missiles : 11/1185
Survey of the World's Aircraft Engines : 12/1279

INDEX BY AUTHORS :
